Volunteer Point of Contact: **Susan Stanley**
(804) 652-3869, sfstanle@henrico.k12.va.us

Henrico County Public Schools recognizes the value of collaboration of outside partners to ensure that all students have the tools to prepare for tomorrow. The benefits of this type of relationship can be key to providing the programs and services in a way that a school system cannot.

The Henrico Education Foundation oversees the community partnership program for the Communications & Community Outreach Department of HCPS. Principals have the authority to pursue and decide which partnerships best suit the needs of their school. Principals can assign another staff member to oversee the partnership program on their behalf. A copy of the HCPS Partnership Agreement is attached.

Community Partnerships vary depending on the needs of the specific school involved in the partnership. The Henrico Education Foundation manages a database of needs. This list includes:

- Mentoring a student;
- Adopting a school or classroom to lend support in multiple ways;
- Broaden the understanding of the challenges and opportunities facing education today and share best practices by shadowing a school principal for a day ([Henrico Boardrooms to Classrooms](#));
- Working one-on-one with a student or group of students in a particular academic area;
- Conducting mock interviews with high school students or share career insights ([Henrico Mock Interviews](#));
- School beautification;
- Donation of supplies, coats, shoes for students; and
- Assisting in the office, library, lunch room etc.

To access an overview of each Henrico County school, use this link:
