

Once again this year the Henrico Business Council will partner with the Henrico County Public Schools and participate in the Henrico School Supply Challenge. There are many students in the county who have factors which impact their lives and contribute to their success in school. Having students equipped each day with the tools necessary to foster learning is one that the business community can impact in a profound way.

How you can help.

- Volunteer your time to organize a school supply drive at your business organization or community neighborhood.
- Donate school supplies (list attached) at the July 2 and August 6 inVision Henrico breakfast meetings or contact the Henrico Business Council to arrange for special pick up.
- Contribute directly to the purchase essential school supplies for a challenged school at the inVision Henrico breakfast meetings.

Your participation, whether large or small, will help contribute to the success of this program. All supplies collected will be delivered to the school the week of August 18, 2008.
